Far-Pul® HD® Belt Clamps are the light-weight belt maintenance tool specially engineered for heavy-duty applications.

Unique design, easily adjustable

The unique design of the Far-Pul HD provides even tensioning across the entire belt width for a secure grip. And with a load capacity of up to three tons (2.7 metric tons), when used with two 1-1/2-ton chain come-alongs, it is ideal for rubber covered and PVC heavy-duty belting from 7/32" (6 mm) to 1" (25 mm) thick.

The Far-Pul HD also accommodates a variety of belt widths. So the need to inventory different clamp bars for different belt widths is eliminated. Clamp brackets slide easily into place against both belt edges for easy adjustability. And clamp-bar pins simplify alignment and positioning.
