

A SAFER WAY TO LIFT A BELT

# Flex-Lifter™ Belt Lifter

safely lifts and holds fully loaded belts.

*The Flex-Lifter™ handles the toughest maintenance task—lifting a fully loaded, tensioned belt—easily and safely.*

- Highest safe lift rating available: 1810 kg.
- Wide, dual-rail base maintains unit stability, even if belt backs up.
- Eliminates pry bars and manual lifting.
- Optimized lift height provides sufficient room to make repairs safely.

Highly Commended  
in the Competition  
"Designing for Safety"  
—The Institute of Quarrying
